public class Main {
```

```
public static void main(String[] args) {
```

```
// Your code here
```

```
}
```

```
}
```

```
...
```

Replace or add the following line inside the `main` method:

```
```java
```

```
System.out.println("Hello, World!");
```

```
...
```

Your complete code should look like this:

```
```java
```

```
public class Main {
```

```
    public static void main(String[] args) {
```

```
        System.out.println("Hello, World!");
