Understanding Text Listening Interchange

Definition and Concept

Text listening interchange involves a conversational or dialogue-based activity where two or more participants exchange information through spoken language. The "2 pages" aspect indicates that the listening tasks or dialogues are typically contained within a manageable, concise format—usually about two pages of text—making them suitable for classroom activities or self-study.

This activity often mimics real-life interactions, such as interviews, conversations, or discussions, providing learners with contextualized language input. The interchange component emphasizes the interactive nature where listening is complemented by speaking, encouraging learners not only to comprehend but also to respond.
